ZEITZ
MOCAA

Introduction

Zeitz Museum of Contemporary Art Africa (Zeitz MOCAA) is one of the most breath-taking venues in Africa, inside and out. Founded in 2017 as a public, not-for-profit institution Zeitz MOCAA is the preeminent venue for exhibitions and programming about contemporary art from Africa and its diaspora.

In addition to hosting the world's most renowned international and local artists and exhibitions, Zeitz MOCAA is the centre to some of the continent's most inspiring events.

Our beautiful designed spaces have been the ideal backdrop to gala dinners, cocktails, weddings, brand and product launches, conferences and symposiums, as well as private meetings and exhibition tours. All supported by a world-class restaurant with years of catering, décor and event experience.

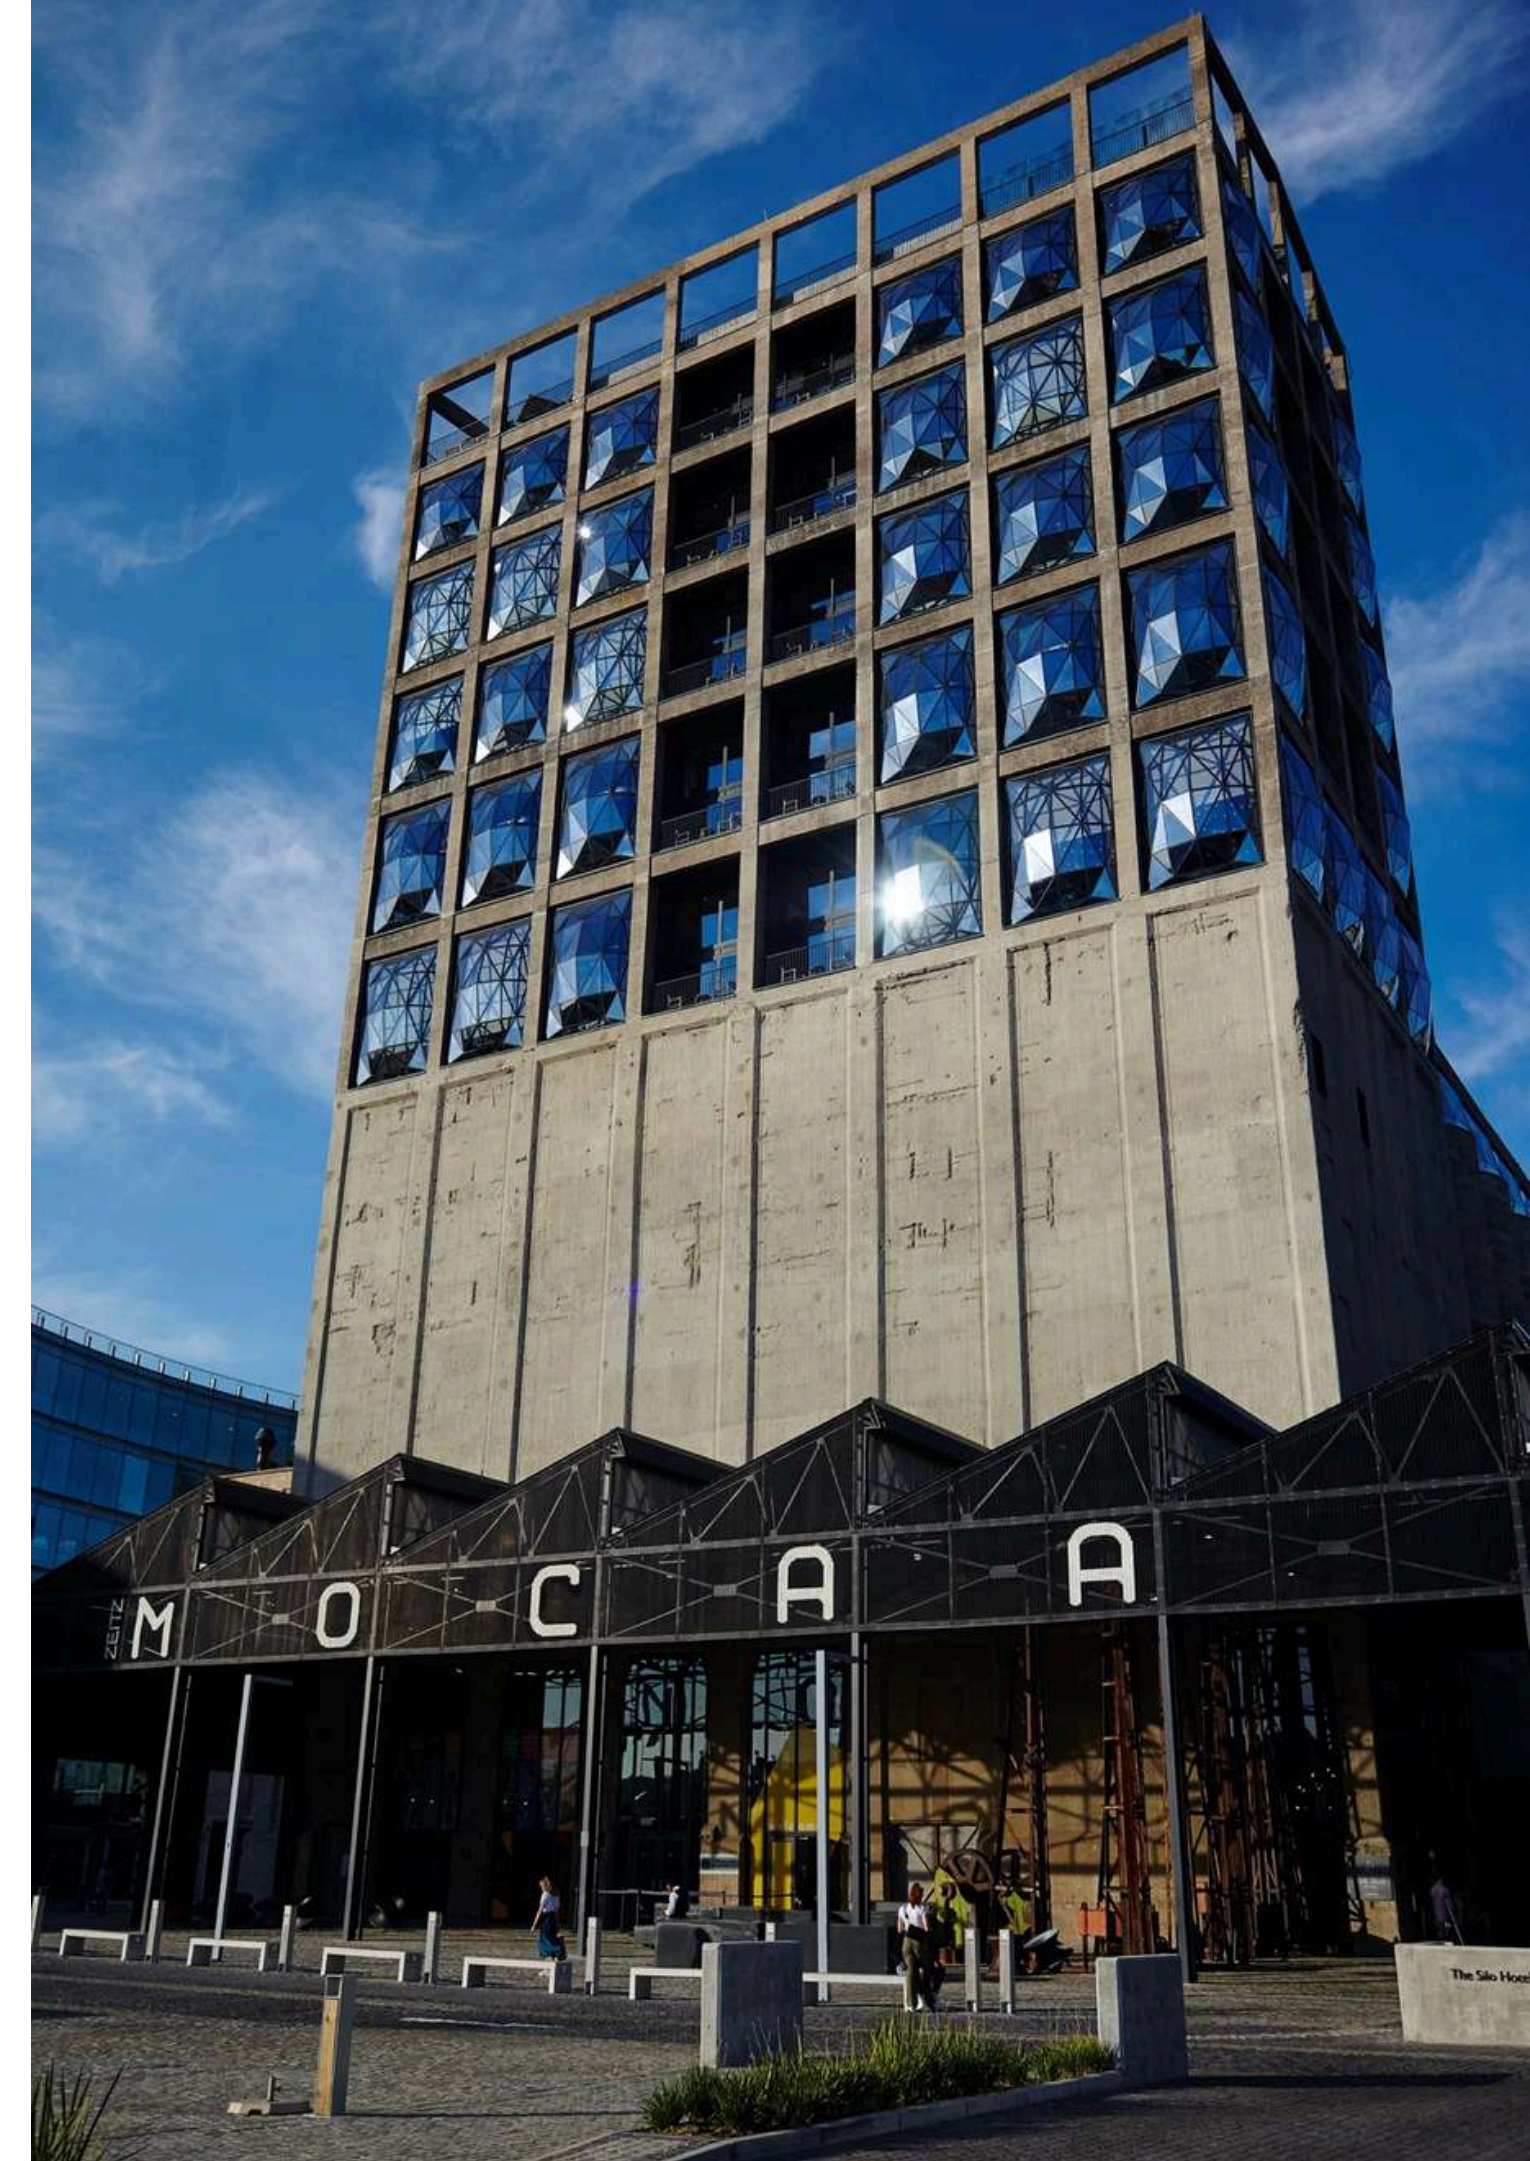

Unique architecture

Zeitz MOCAA was designed by world-renowned architect Thomas Heatherwick of Heatherwick Studios, who reimagined the Grain Silo Complex at the V&A Waterfront as an architectural intervention inspired by its own historic character.

Imagine being inside one of forty-two 33 metre high concrete tubes, each with a diameter of 5.5 metres.

The project called for a solution that would be unique to Africa and create the highest possible quality of exhibition space for the work displayed inside. Imagine your event inside this magnificent combination of original industrial design and contemporary creativity.

The Atrium Bowl and Tunnels

The Atrium bowl and tunnels are the center of Zeitz MOCAA, the heart of what once were grain silos. The glass ceilings of each silo (pictured right) allow for natural light to filter through and really shows off its beauty and the realization of its enormity.

The Atrium bowl (next page) is a beautiful space to host cocktail events and weddings. The space can accommodate up to 60 people for cocktail events.
